

BEE HIVE CONSTRUCTION CLASS

2 PART Classes \$40

- Bee Hive Construction, January 21, 2012 Saturday at 12 noon
- Installing your Bees class on February 18th. 2012 at 12 noon.

The fee of \$40 includes both classes and includes a pint of local honey and lunch. Come learn hands on, how to construct, paint and choose locations for your hive. You may order your bees from us and learn how to install them in the second class.

This is an excellent class for those beginners wanting to have control over their own honey supply. A hands on class taught by expert Bee Keeper, John Tackett, in easy to understand classes. This is a great Gift idea for someone interested in the care and keeping of Bees.
